

Table of Contents

Preface	7
1. E-business Dynamics	9
2. Business Process Integration	11
2.1. Process Types.	11
2.2. Process Semantics.	13
2.3. Process Life Cycle	19
2.4. Business Process Integration Elements	21
2.5. Roles and Responsibilities	22
3. Collaborative E-business.	25
3.1. Collaboration Patterns.	25
3.2. Trading Partner Agreements.	28
3.3. Cross-organizational Linking of Business Processes	29
3.4. Perspectives for Technical Solutions	35
4. Key BPIS Requirements and Characteristics	47
4.1. Representation of the Organizational Structure.	48
4.2. Semantic Richness of Process Models	48
4.3. Adaptability of Business Processes	50
4.4. Rapid Software Development Tools	50
4.5. Mature BPI System Architecture	51
4.6. Reliable Process Automation Capabilities	52
4.7. Comprehensive Monitoring Features	57
5. Process Modeling.	59
5.1. Process Modeling Scenario	59
5.2. Process Metamodel	60
5.3. Process Modeling Languages.	60
5.4. Process Modeling Syntax.	61
5.5. Modeling of Exceptions	63
5.6. Model Object Properties	63
5.7. Process Simulation, Analysis and Optimization.	64
5.8. Process Modeling Tools	64
6. Development	67
6.1. Business Service Integration	67
6.2. Business Service Development.	69
6.3. Technical Infrastructure	72
6.4. Available Technologies	77
6.5. Architectural Issues	90
6.6. Development Tools.	103
7. Deployment	107
7.1. Deployment Scenario	107
7.2. Process Deployment.	107
7.3. Business Service Deployment.	108
7.4. Business Service Configuration.	108
7.5. Deployment Tools	109
8. Process Execution	111

8.1.	Process Execution Scenario	111
8.2.	Business Process Engine	112
8.3.	User Worklists	117
8.4.	On-the-fly Changes of Process Instances	117
8.5.	Business Service Execution	118
8.6.	Processing Signed Documents	119
8.7.	Transaction Management	120
8.8.	Exception Handling.	122
8.9.	Implementation Alternatives	124
9.	Management	131
9.1.	Management Scenario	131
9.2.	Administration	131
9.3.	Monitoring	134
9.4.	Log Files	136
9.5.	Audit Trails	136
9.6.	Reports	137
10.	Executive Summary	139
10.1.	BPIS Classification	140
10.2.	Trends	140
10.3.	Distinctive Features and Evaluation Criteria	142
10.4.	Total Cost of Ownership	145
10.5.	Issues and Concerns	146
10.6.	Conclusion and Outlook.	151
